

Save the Children

2023 EDITION

# GIFTS OF JOY

**GIVE JOY  
THIS HOLIDAY  
SEASON**

**INSIDE:  
GIFTS  
THAT CAN CHANGE  
A CHILD'S LIFE**

**EDUCATION // CHILD HEALTH // SUSTAINABILITY // CLIMATE, CONFLICT, AND EMERGENCIES  
RECONCILIATION // CHILD PROTECTION**

# THE GIFT OF CHANGE

A Gift of Joy is also a gift of change. The change you bring to a child's life can set them on a new path towards breaking the cycle of poverty.

You can also help improve health, alleviate hunger, and educate a child.

When you purchase a Gift of Joy this holiday season, you can show a child you care.

**Danny Glenwright**  
President and CEO, Save the Children

## YOUR IMPACT

Save the Children works in more than 100 countries, helping the hardest-to-reach children and youth. Our programs are transformative in the areas of health, child protection, education, and economic empowerment.

When crisis strikes, we respond immediately and stay to help rebuild in the long-term.

**OUR PROMISE** Everything you see in our catalogue is an actual product or service Save the Children provides to children and families around the world with the help of donors like you. We're committed to honouring your generosity in the most effective way and are dedicated to giving every child the best chance for success. The gifts shown throughout our catalogue are representative of categories such as education, health, or sustainable livelihoods, but may change due to environmental, programmatic, or economic considerations and needs. Your donation will be used to provide assistance where it is needed most and will provide tangible solutions to help entire communities overcome poverty and achieve self-reliance.

## INSIDE:

### CHILD HEALTH

**Pages 4-5**

Provide food, clean water, and healthcare to an at-risk child.

### SUSTAINABILITY

**Pages 6-8**

Help children's farms grow and produce healthy harvests.

### CLIMATE, CONFLICT, AND EMERGENCIES

**Pages 9-11**

Provide children affected by conflict and climate disasters with emergency care.

### RECONCILIATION

**Pages 12-13**

Ways you can support Indigenous-led initiatives and reconciliation.

### CHILD PROTECTION

**Pages 14-15**

Protect a child from violence, early and forced marriage, and more.

# EDUCATION

When a family faces financial hardship, one of the first things sacrificed is a child's education.

## MOST NEEDED

### EDUCATE A GIRL **\$75** / EDUCATE 2 GIRLS **\$150**

Every girl has the right to an education. But, too often, families can't afford to keep their daughters in school and feel compelled to consider early marriage. When girls stay in school, it delays marriage and childbirth, and provides them with an opportunity to become self-sufficient. Books, learning materials, and access to education allow girls to pursue their dreams.

### SCHOOL LUNCHES **\$50**

Lunch provided at school is sometimes the only meal a child receives each day. Provide a month of school lunches for two children so they can focus on learning and not their hungry bellies.

Photo by Victoria Ziegler / Save the Children

### EDUCATE DISPLACED CHILDREN **\$225**

Children displaced by war, natural disasters, and other emergencies often lose access to education, which limits their ability to succeed later in life. Provide a temporary classroom within a displacement camp for children whose schooling has been disrupted.

**HIGH IMPACT**

## **SCHOOL WATER PROJECT \$125**

Help provide clean running water for a school and allow an entire community of children to benefit. Clean water protects from diarrheal diseases, which are leading causes of death among children.

Food, water, and medical care protect children from deadly diseases, and critical health issues like malnutrition, so they can grow up healthy and learning.

# **CHILD HEALTH**

## **CLEAN WATER PROJECT \$50**

Give access to clean water! Help drill a well, install a solar water pump, or build a washroom for a community to reduce the spread of deadly diseases. With a clean water source nearby, children can go to school instead of walking long distances to collect water for their families.

## MEDICINE AND VACCINES \$50

Provide children under the age of five with life-saving protection. Antibiotics, rehydration salts, zinc, malaria medicines, and vaccines for diseases such as measles, polio, and tetanus, as well as training for health workers and parents, help keep children healthy.

### MOST NEEDED

## MALNUTRITION TREATMENT \$250

45 million children worldwide are facing acute malnutrition, a deadly threat to their survival. Provide life-saving treatment for children over several weeks, including high-nutrient peanut paste, fortified milk, antibiotics, and medical care.

## STOCK A MEDICAL CLINIC \$75

Stock a medical clinic with stethoscopes, blood pressure monitors, thermometers, measuring tapes, syringes, gauze, and bandages. These are life-saving in the hands of health workers in rural communities with limited options.

### NEW

## CASH ASSISTANCE FOR FOOD \$100

Many children miss meals due to soaring food costs or loss of livelihoods from droughts and economic collapse. With cash assistance, a family has the flexibility to buy the food they urgently need, while supporting local businesses.

# SUSTAINABILITY

Livestock, healthy harvests, tools, and training give a child access to nutritious food, as well as wool and feathers to keep warm. Each animal gift also includes animal care training and veterinary support, including vaccinations against disease.

## CHICKS \$25

Chicks grow into productive egg-layers, providing protein-rich eggs to feed a child. Extra eggs can be sold to cover health and living essentials.

## 1 GOAT + 2 CHICKS \$75

Goats and chicks provide an essential daily supply of milk and eggs to help nourish a growing child. Livestock can be bred to expand the family's income.

## 2 GOATS + 1 SHEEP \$140

With two goats and a sheep, a family can focus on financial stability. The sale of milk, offspring, wool, and fertilizer can generate an income to overcome poverty.

## LIVESTOCK BUNDLE **\$520**

Provide a child's family with a cow, a donkey, two goats, and two sheep. These animals will provide food and marketable items year after year.

### BEES **\$50**

Bees provide a family with honey and beeswax that can provide income. These busy pollinators can also increase annual crop production to enhance food security.

### 1 COW **\$200**

A single cow can change a child's life by providing protein and calcium while offering an opportunity to sell milk that finances a child's education and healthcare.

### 2 GOATS + 1 COW **\$280**

A cow and goats are the foundation of a thriving dairy farm. Vital for children, milk quenches thirst, and provides essential vitamins and minerals that can stave off malnutrition.

# SUSTAINABILITY

## STOCK A CHILD'S FARM **\$225**

Many children rely on livestock and crops to survive. Stock a child's farm with seeds, fruit trees, a goat, some chicks, farming tools, and a water source for irrigating crops and feeding livestock.

## SEEDS AND TOOLS **\$75**

Climate-appropriate native seeds can help a home garden to grow. A child and their family will also receive tools, such as hoes, shovels, and watering cans, along with rich organic fertilizer and instruction to help their garden succeed.

## CLIMATE-RESISTANT FARMING ESSENTIALS **\$115**

Help a child's farm thrive during a life-threatening drought with climate-tolerant seeds, irrigation tools, higher yielding crops that mature quickly, and training on planting practices for arid conditions.

# CLIMATE, CONFLICT, AND EMERGENCIES

In times of humanitarian crisis, children are at their most vulnerable. Forced to flee with nothing but what they can carry, and sometimes separated from family, children end up in displacement camps and need health and safety essentials.

## EMERGENCY SHELTER AND HYGIENE KIT **\$125** HYGIENE KIT **\$35**

Children displaced by conflict or climate disasters leave everything behind. Give a child a shelter kit – with a blanket, sleeping mat, tarp, and rope to make an emergency shelter – plus a hygiene kit, loaded with basics like soap, toothpaste and toothbrushes, shampoo, menstrual pads, diapers, and cleansers.

**MOST NEEDED**

## DROUGHT RESPONSE KIT **\$100**

Climate emergencies like drought have devastating results on food security for children. Help a child survive a drought by providing emergency food, high-nutrient peanut paste for malnutrition, and clean water.

# CLIMATE, CONFLICT, AND EMERGENCIES

## CARE FOR A CHILD FLEEING CONFLICT **\$225**

Children fleeing conflict have been ripped from their homes, schools, and sometimes their families. Provide a child with the care they need to endure the chaos of conflict: emergency food, medicine, a clean water kit, trauma support, and access to education.

## CLEAN WATER KIT **\$25**

A clean water kit – including soap, a bucket, and water-purifying tablets – helps to maintain hygiene and health. This can be a literal life-saver for families displaced by conflict or overwhelmed by climate disasters.

**MOST NEEDED**

**EMERGENCY FOOD \$50**

Children caught in concurrent crises such as drought, soaring food prices, and war are in desperate need of reliable, nutritious food to keep them healthy. Provide emergency food for a child living on the brink of famine.

**NEW**

**WINTER WARMTH KIT \$75**

Many children who have fled to displacement camps need to survive the cold winter with minimal shelter. Bundle a child in warmth with a toque, mittens, coat, sweater, socks, and boots.

**EMERGENCY HEALTH UNIT \$150**

Put a world class team of doctors and nurses – equipped by a global network of supply hubs – at an ill or injured child’s side, giving them the treatment they need within 72 hours of a crisis erupting.

# RECONCILIATION

## MENTAL WELLNESS KIT **\$125**

Providing access to culturally sensitive mental health support is a priority for many Indigenous communities. It is critical for the physical, emotional, mental, and spiritual wellbeing of children. Support a child to enhance their emotional and interpersonal skills with a mental wellness app combined with local programs grounded in Indigenous knowledge.

Colonization and deep systemic racial biases have put Indigenous children in Canada at a severe disadvantage. This context has created intergenerational trauma and barriers to accessing appropriate healthcare, education, and traditional languages. Despite this, Indigenous communities across Canada are making significant efforts to ensure all children receive quality education, as well as access to distinct cultural educational resources.

**Take a positive step toward reconciliation by supporting Indigenous-led initiatives that benefit children from coast to coast to coast.**

## LITERACY-BOOSTING BOOKS \$50

By reading books from Indigenous authors and illustrators, Indigenous children can embrace their heritage and find acceptance, particularly in remote communities where resources may be limited. You can give a child the gift of books that represent them, their stories, and their communities.

## EMERGENCY BACKPACKS \$45

The increasing number of climate emergencies, like extreme weather, flooding, and forest fires, regularly force entire Indigenous communities in Canada to be evacuated. Provide an emergency backpack that contains a hygiene kit, ID bracelet, flashlight, toy, notebook and pen, along with emergency training to keep a child safe.

## BABY BUNDLE \$65

Partner with Indigenous-led health and social services to provide a baby bundle to parents who are expecting or caring for an infant. Each kit includes diapers, wipes, lotion, clothing, a digital thermometer, warm blanket, and plush toy.

# CHILD PROTECTION

Every child has the right to be safe and free from harm. Protect a child at risk of violence, trafficking and abuse, fight against early marriage and childbirth, and provide education and life-saving healthcare to adolescent mothers and their babies.

HIGH IMPACT

## PROTECT AN UNACCOMPANIED CHILD **\$100**

Protect a vulnerable child who has lost or been separated from their parents or family due to conflict, natural disaster, or other crises. This gift provides an unaccompanied child with adult protection and essentials such as food, shelter, medical care, and trauma counselling.

Photo credit: Save the Children

## PROTECT A GIRL FROM EARLY AND FORCED MARRIAGE **\$215**

Child, early and forced marriage ends a girl's education, limits her ability to find a good job, forces her into adult responsibilities, and puts her at risk of early pregnancies and maternal death. Support work with girls, their parents, and community leaders to change discriminatory social norms, helping to end this form of gender-based violence.

## ADOLESCENT MOTHER AND BABY HEALTH **\$75**

Across the globe, many girls have babies before their bodies are ready and have limited access to a doctor while pregnant. Support programs that educate parents and adolescents about sexual and reproductive health and rights. This gift also provides access to healthcare for young women whose lives are in danger from early pregnancy.
